Experience

UI/UX Designer
Freelance

Specialized in UI/UX design for digital products (platforms,
websites, and e-commerce). Creation of visual identities
and complete brand strategies. Strategic consulting for
startups and freelancers.

June 2024 → Current occupation   Venice, Italy

UI/UX Designer
Riverse

I designed the user experience and interface of Riverse's
MRV and Registry products. I developed the Design
System in Figma, integrated with Storybook, and
collaborated with cross-functional teams to meet the
scientific team's needs. I maintained continuous
communication with developers and worked closely with
the project manager, contributing to updates and key
decisions.
Reference: Clément Georget | CTO of Riverse

September 2022 → June 2024   Paris, France

Front End Developer
Doozy

Designed websites using Adobe XD. Developed and
implemented WordPress websites. Completed
comprehensive training in front-end development and soft
skills to enhance technical expertise and team
collaboration.

May 2021 → August 2022   Padova, Italy

Graphic Designer
Freelance

Designed print materials for the City of Selvazzano.
Created visual identities tailored for various projects.

August 2019 → March 2021   Lyon and Tours, France

Graphic Designer - internship
Tote ADV

Learned the basics of digital and printing graphic design.

October 2018 → January 2019   Padova, Italy

Education

Master UI/UX Design
Université Sorbonne Paris Nord

Practical and theoretical course in: user interface design,
webdesign, project management, art director.
Partnership with Campus Fonderie de l'image.
